

## Special Issue

# Biomass Power Generation Technologies

### Message from the Guest Editor

This Special Issue aims to publish and feature various existing and future technologies in biomass power generation. Research highlighting innovations, recent developments, current state of the art, emerging technologies, CFD (Computational Fluid Dynamics) analysis of biomass power generation technologies, etc. along with other notable topics in this field are highly encouraged.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
