Special Issue

Biomass Power Generation Technologies

Message from the Guest Editor

This Special Issue aims to publish and feature various existing and future technologies in biomass power generation. Research highlighting innovations, recent developments, current state of the art, emerging technologies, CFD (Computational Fluid Dynamics) analysis of biomass power generation technologies, etc. along with other notable topics in this field are highly encouraged.

Guest Editor

Dr. Jeeban Poudel

School of Civil Engineering, Faculty of Engineering, Architecture and Information Technology, University of Queensland, Brisbane 4072, Australia

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
