

## Special Issue

# Biomaterials and Biofuels: Small Environmental Footprint

### Message from the Guest Editors

This Special Issue aims at establishing a platform to discuss state-of-the-art research and progress as well as future perspectives of value-added products through fermentation. High-quality original research and review articles within the topics of this issue are warmly invited. Potential topics include but are not limited to the following: 1. Biofuels from waste streams by fermentation; 2. Biopolymers and bioplastics by fermentation.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
