

Special Issue

Carbonization of Biomass for Energy Production

Message from the Guest Editors

The is inviting submissions to a Special Issue of *Energies* titled “Carbonization of Biomass for Energy Production”. Energy production via the carbonization of biomass has been considered a promising technique to utilize extensive biomass resources. Topics of interest for publication include, but are not limited to, the following:

- Design and development of carbonization systems
- Numerical analysis of carbonization systems
- Thermodynamic and heat transfer models
- Integration of carbonization systems in district energy projects
- Integration of carbonization processes with other thermochemical and biochemical processes
- Reaction kinetics and process optimization
- Life cycle analysis of carbonization processes
- Circular bioeconomy with carbonization processes
- Further processing of bio-/hydro-char for energy storage and catalysis sectors

Guest Editors

Dr. Mohammad Heidari

1. Net Zero Advisor & Project Manager, WSP, Toronto, ON, Canada
2. School of Engineering, University of Guelph, Guelph, ON N1G 2W1, Canada

Dr. Shakirudeen Salaudeen

1. Faculty of Sustainable Design Engineering, University of Prince Edward Island, Charlottetown, PE C1A 4P3, Canada
2. School of Engineering, University of Guelph, Guelph, ON N1G 2W1, Canada

Deadline for manuscript submissions

closed (15 April 2022)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
