

Special Issue

Smart City Lighting Systems

Message from the Guest Editor

The smart city concept has been introduced as a model for developing the city of the future, and most improvements and transformations in this model are based on energy aspects. In this context, lighting has assumed a fundamental role, from energy, environmental, and human comfort perspectives.

This Special Issue seeks to improve knowledge of all these dimensions of light (energy, performance, psychology, safety, physiology, economics, etc.) in the smart city era, asking for scientific and multidisciplinary contributions that bring innovation and new perspectives. We therefore invite papers on innovative technical developments, reviews, case studies, and analytical, as well as assessment, papers from different disciplines, which are relevant to smart city lighting systems.

Guest Editor

Dr. Fabio Bisegna

Department of Astronautical, Electrical and Energy Engineering (DIAEE),
Sapienza University, Via Eudossiana 18, 00184 Rome, Italy

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
