

Special Issue

Computational Thermal, Energy, and Environmental Engineering

Message from the Guest Editors

We are inviting you to a Special Issue of *Energies* on the subject area of "Computational Thermal, Energy, and Environmental Engineering". Energy and environmental engineering problems are attracting scientific attention these days. Through the development of numerical methods and optimization techniques, it is possible to solve increasingly complex scientific and technical problems. This Special Issue invites the authors to present original contributions on topics related to computational heat and mass transfer, computational energy, and environmental engineering. Manuscripts related to modeling and simulation within the following research areas are most welcome:

- Heat Exchangers;
- Renewable Energy Sources;
- Solar, Wind and Geothermal Energy;
- Sustainable Development;
- Computational Thermal Fluid Dynamics;
- Optimization of Energy, Environmental, and Electrical Systems;
- Energy Storage;
- Combined Heat and Power Plants;
- Energy Savings;
- Energy Efficiency;
- Heat Transfer Enhancements;
- Pollution Transport Modeling.

Guest Editors

Prof. Dr. Paweł Ochoń

Energy Department, Faculty of Environmental and Energy Engineering, Krakow University of Technology, Al. Jana Pawła II, 31-864 Krakow, Poland

Dr. Piotr Cisek

Department of Energy, Faculty of Environmental and Energy Engineering, Cracow University of Technology, al. Jana Pawła II 37, 31-864 Kraków, Poland

Deadline for manuscript submissions

closed (31 January 2022)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
