

Special Issue

The Study of Emerging Electrical Machine Technologies and Their Applications

Message from the Guest Editors

We kindly invite you to contribute an article to the Special Issue of the MDPI journal *Energies* on the topic “*The Study of Emerging Electrical Machine Technologies and Their Applications*.” The central theme of this Special Issue focuses on novel electrical machine technologies that have potential as next-generation electrical machines and their potential industry applications. Topics of interest may include but are not limited to:

- Novel permanent magnet (PM) machines;
- Flux-modulated electrical machines ;
- High-speed electrical machines;
- Reluctance and PM-assisted synchronous machines;
- Novel linear machines and applications;
- Wound field machines for electric vehicles;
- Novel induction machines;
- Axial flux machines;
- Permanent magnet or hybrid excited vernier machines;
- Numerical techniques and optimization strategies.

Guest Editors

Prof. Dr. Rong-Jie Wang

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
