

## Special Issue

# Distribution System Optimization

### Message from the Guest Editors

Distribution system optimization has been attracting researchers for decades, but the dramatic revolution in power systems, which is particularly affecting the distribution business, requires new activity in the field, since many of the assumption that guided distribution optimization are no longer valid or should be discussed. This Special Issue is looking for contributions on:

- Integrated TSO/DSO planning and optimization under uncertainty;
- Distribution optimization under uncertainty;
- Cross-sectoral planning (multi-energy/multi-service optimization);
- Emerging technologies and novel schemes (e.g. microgrids) in distribution optimization;
- Distribution optimization and resiliency;
- Artificial intelligence applied to distribution optimization;
- Models of flexible demand/generation in distribution optimization;
- Impact of services offered by microgrids and local energy communities on network architecture and system development.

### Guest Editors

Prof. Dr. Fabrizio Pilo

Department of Electrical and Electronic Engineering, University of Cagliari, Piazza d'Armi, 09123 Cagliari, Italy

Prof. Dr. Gianni Celli

Department of Electrical and Electronic Engineering, University of Cagliari, Piazza d'Armi, 09123 Cagliari, Italy

### Deadline for manuscript submissions

closed (31 October 2019)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
