

Special Issue

Energy Systems and Applications in Agriculture

Message from the Guest Editors

this Special Issue aims to showcase recent advancements and improvements of such energy systems and their technologies for various agricultural practices/applications. This Special Issue will consider cutting-edge research works and review articles focused on energy-efficient system design, integration of renewable energy, automation, and control, modeling and simulation, energy-efficient post-harvest processing, and alternate energy sources for the agricultural production systems.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
