

Special Issue

Selected Papers from 2nd Energy Future Conference

Message from the Guest Editors

The Second Energy Future Conference (www.ozenergyfuture.com) will focus on energy storage—from generation to distribution, and cover international advances in the area. As part of the Energy Future Conference, we are inviting publications in the particular areas of energy storage including generation, distribution, policy, and social dimensions. Energy storage is central to the challenges facing society in the 21st century, *i.e.*, how to transition to sustainable energy systems. The challenges are also in the implementation of new technological solutions re-shaping the energy sector, at the grid and off-grid levels, for mobility, but also industrial, commercial, and residential buildings.

Guest Editors

Prof. Dr. Kondo-Francois Aguey-Zinsou

Dr. Da-Wei Wang

Dr. Yun-Hau Ng

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
