

Special Issue

Energy Security as a Key Driving Factor for Socioeconomic Development: From Mitigation to Solution

Message from the Guest Editors

We are inviting qualified scientists to participate and share their work with the international scientific community via this Special Issue of *“Energy Security as a Key Driving Factor for Socioeconomic Development: From Mitigation to Solution”*. We aim to provide a picture of the global problem, and to explore it via case studies. This approach will help the scientific community and decision makers understand how best to tackle the global problem of energy security. The topics of interest for this Special Issue include but are not limited to:

- Energy efficiency models and simulation tools;
- Energy efficiency improvement tools;
- Energy security and development nexus;
- Building energy security;
- Transformation towards renewable energy sources;
- Impact of energy poverty on human development and the environment;
- Energy resource studies and exploitation barriers;
- Fossil fuel subsidies, fuel switching, and fuel stacking;
- Techno-economic assessment of energy supply solutions;
- Current and potential role of carbon-neutral technologies.

Guest Editors

Prof. Dr. Barbara Pawlowska

Department of Transport Economics, Faculty of Economics, University of Gdansk, 80-309 Gdansk, Poland

Prof. Dr. Giuseppe T. Cirella

Faculty of Economics, University of Gdansk, 81-824 Sopot, Poland

Deadline for manuscript submissions

closed (30 September 2021)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
