

Special Issue

Energy Transitions for a Green Economy: Strategies, Utilities and Resources

Message from the Guest Editors

This Special Issue covers original research and studies related to the described background, including but not limited to the topics listed below.

- sustainable development
- green economy
- energy transition
- resources efficiency
- circular economy
- efficient energy conversion
- life cycle analysis
- mobility
- industry
- buildings
- innovation
- economy electrification
- environmental impact
- modeling and optimization
- strategic impact assessment

We are writing to invite you to submit your original work to this Special Issue. Reviews are also welcome. We look forward to receiving your outstanding research.
Prof. Dr. Senhorinha Teixeira

Guest Editors

Dr. Senhorinha de Fátima Capela Fortunas Teixeira
Department of Production Systems, University of Minho, 4800-058
Guimarães, Portugal

Dr. Ana Cristina Ferreira

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
