

Special Issue

Advanced Coal, Petroleum and Nature Gas Exploration Technology

Message from the Guest Editors

Greetings from the guest editors of the *Energies* Special Issue on “Advanced Coal, Petroleum and Nature Gas Exploration Technology”. We cordially invite you to submit your high-quality manuscripts to the Special Issue of the journal *Energies* on advanced coal, petroleum, and nature gas exploration technology. This Special Issue will cover a broad range of topics concerning coal, petroleum, nature gas, coalbed methane, shale oil, combustible ice, and other fossil energy, including exploration, reservoir characterization, machine learning applications, well logging, and geological aspects, and approach those topics from both an exploration and a production standpoint. We invite papers on innovative technical developments, reviews, case studies, as well as analytical and assessment papers from different disciplines that are relevant to the topic.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
