

## Special Issue

# Functional Materials for Electrochemical Water Desalination

### Message from the Guest Editors

Ion transport is one of the basic principles for the development of many technologies, which can improve the life quality such as the ever-growing of clean and sustainable energy, the development of water scarcity, even for the improvement of fundamental knowledge toward medical applications. Yet, freshwater appears to be running short due to the increasing world population, industrialization, and climate change. There is an urgent need to seek out alternative freshwater; hence, water desalination and ions separation technologies have become major interest. The prime goal of this Special Issue is to shed more light on the energy-efficient ions separation from water by utilizing advanced and well-engineered materials. We invite both review articles and original/fundamental research articles in this area.

---

### Guest Editors

Dr. Pattarachai Srimuk

INM - Leibniz-Institute for New Materials, 66123 Saarbrücken, Saarland, Germany

Dr. Pawin Iamprasertkun

Department of Applied Physics, Faculty of Sciences and Liberal Arts, Rajamangala University of Technology Isan, Nakhon Ratchasima 30000, Thailand

---

### Deadline for manuscript submissions

closed (5 March 2022)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
