

Special Issue

Green Economics and Sustainable Management of Energy Sources

Message from the Guest Editors

The changes of the worldwide paradigm from resource-based development to green and sustainable development require an adequate response from the worldwide community. This Special Issue focuses on broad aspects of green growth, sustainable development, renewable energy, green investments, and green mindset. This Special Issue aims at stimulating researchers' debate on government policy, business, and communities' initiatives to spread the philosophy of the green economy and raise green awareness among the worldwide community.

Contributions on the following topics, among others, are invited to the Special Issue:

- Green energy and energy security;
- Green growth and energy efficiency;
- Green economics and public health;
- Green innovation for a sustainable energy future, etc.

We are pleased to invite you to submit your original research papers to this Special Issue on "Green Economy and Sustainable Management of Energy Sources".

Guest Editors

Prof. Dr. Tetyana Pimonenko

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
