

Special Issue

Intelligent Control for Future Systems

Message from the Guest Editor

We are organizing a Special Issue "Intelligent Control for Future Systems" that may be of interest to you and would like cordially to invite you to submit a manuscript for consideration and possible publication. The topics of interest in this Special Issue may include but are not limited to the following:

- intelligent control
- computational intelligence for modelling and control
- applications of intelligent control
- data-driven control
- control of complex processes
- nonlinear control systems
- fractional order systems

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
