Special Issue

Conversion of Lignin into Fuel and Chemicals

Message from the Guest Editor

We invite submissions to a Special Issue of the journal *Energies* on the topic of "Conversion of Lignin into Fuel and Chemicals". This Special Issue would like to encourage original contributions regarding recent developments and ideas in chemical and biological conversion of lignin species. Potential topics include but are not limited to: Depolymerization of lignin, conversion of lignin using oxidative or reductive means, sub- or supercritical conversion of lignin, and the use of enzymatic or whole-cell conversion of lignin into bulk, fine or specialty chemicals as well as fuel additives and fuels.

Guest Editor

Prof. Dr. Christian Per Hulteberg

Department of Chemical Engineering, Lund University, P.O. Box 124, 221 00 Lund, Sweden

Deadline for manuscript submissions

closed (30 July 2020)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:
CiteScore - Q1 (Control and Optimization)
