

Special Issue

Low-Temperature Thermodynamic Power Cycles

Message from the Guest Editors

This Special Issue will provide a comprehensive overview of the latest research and development in the area of ORC technology. Authors are encouraged to submit original research and review articles for the Special Issue. Themes include but are not limited to:

- Applications and energy sources;
- System design and optimisation;
- Working fluids (pure, mixtures, nanofluids);
- Turbines and volumetric expanders;
- Dynamic modelling and control strategies;
- Operational experience on prototypes;
- Novel/advanced cycle configurations;
- Domestic/multigeneration systems.

Guest Editors

Dr. Muhammad Imran

Dr. Alison Subiantoro

Prof. Dr. Kyung Chun Kim

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
