Special Issue

Energy Performance, Management and Recovery in Buildings

Message from the Guest Editor

This Special Issue "Energy Performance, Management and Recovery in Buildings" aims to contribute to this subject by highlighting the latest research in building energy performance, management and recovery technologies. Topics of interest for publication include but are not limited to the following:

- building energy performance
- smart buildings
- façade thermal performance
- energy harvesting
- smart energy management
- building-integrated energy technologies

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy
