Special Issue

Advanced Energy Materials for Thermal Energy Storage Systems

Message from the Guest Editor

The proposed Special Issue will cover an up-to-date coverage of fundamentals as well as recent advancements in energy efficient thermal energy storage materials, their characterization and technological applications. Research articles based on the status updates on fundamentals as well as substantial innovations, research and development work related to various aspects of energy materials related to thermal energy systems; along with critical insight into future directions will be of high interest.

Guest Editor

Prof. Dr. Amritanshu Shukla

Non-Conventional Energy Laboratory, Rajiv Gandhi Institute of Petroleum Technology, Rae Bareli, Uttar Pradesh, India

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
