

## Special Issue

# Modular Multilevel Converters MMC

### Message from the Guest Editor

This Special Issue, entitled “Modular Multilevel Converters (MMC)”, has been proposed for the international journal *Energies*, which is an SSCI and SCIE journal (2018 IF = 2.707). This Special Issue mainly covers original research and studies related to the abovementioned topics, including but not limited to the control, dynamics, and performance of MMC in selected applications. Prospective authors are invited to submit original contributions for publication in this Special Issue. Topics of interest include but are not limited to: Control for different applications of MMC—HVDC, FACTS, drives, renewable energy sources, etc.; Optimal design and selection of components for the selected application; Control, dynamics and performance of MMC in the selected application; Advances in the control and modulation techniques; Operation of MMC under unbalanced grid conditions; Fault tolerant control and operation of MMC; Stability analysis of MMC; Harmonic impedance characteristic and frequency response of MMC.

### Guest Editor

Dr. Sanjay K Chaudhary

Department of Energy Technology, Aalborg University, 9220 Aalborg Ø, Denmark

### Deadline for manuscript submissions

closed (28 February 2021)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
