

Special Issue

Progress in Smart Grid Management and Application

Message from the Guest Editors

are inviting you to contribute to this Special Issue "Progress in Smart Grid Management and Application", submitting papers focused on Smart Grid Management and Applications. Topics of interest include, but are not limited to, the following:

- Micro-grid development and management;
- Energy aggregators and demand response strategies for a new distribution network energy market;
- Green hydrogen integration;
- Distributed generators and energy storage systems integration;
- Electric Vehicles integration;
- Energy conversion systems for renewable energy sources;
- Grid connected power converters;
- Bidirectional power converters;
- Communication in MV and LV power systems;
- Distributed measurement systems;
- Monitoring and management;
- Load flow algorithms;
- Grid Digital Twin;
- Data Analysis;
- Blockchain applications;
- Smart Grids cyber-security;
- IoT solutions;
- Intelligent electronic devices integrating measurement, control and communication capabilities.

Guest Editors

Dr. Giovanni Tinè

Dr. Valeria Boscaino

Dr. Nicola Panzavecchia

Deadline for manuscript submissions

closed (30 June 2023)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
