

## Special Issue

# Innovative Functional Materials for Rechargeable Potassium Batteries

### Message from the Guest Editor

It is our great pleasure to invite you to submit original research papers, short communications, or state-of-the-art feature articles (comments or reviews) within the scope of this Special Issue. This Special Issue will discuss key technological developments and scientific information on a broad range of rechargeable potassium batteries, such as K-ion, K-O<sub>2</sub>, K-S, K-metal, and all-solid-state potassium batteries.

- K-ion batteries
- K-S batteries
- K-O<sub>2</sub> batteries
- K-metal batteries
- all-solid-state potassium batteries

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
