

Special Issue

Recovery of Solid Waste in Industrial and Environmental Processes

Message from the Guest Editor

In this Special Issue, researchers are invited to submit original research papers, as well as review articles, on any of the topics related to energy/raw material recovery from agro-industrial waste, also providing an economic analysis of the whole process. Exergy analysis of novel energy/raw material recovery processes is also welcome. The studies should report the complete re-use of the waste, focusing on the overall costs and sustainability of the proposed processes.

Guest Editor

Prof. Dr. Giorgio Vilardi

Department of Chemical Engineering Materials Environment, Sapienza University of Rome, 00185 Rome, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
