

Special Issue

Renewable Energy from Solid Waste

Message from the Guest Editors

This Special Issue, entitled “Renewable energy from solid waste” for the international journal *Energies*, mainly covers original research and studies related to the abovementioned topics including, but not limited to, Solid waste gasification, Plasma gasification, Municipal Solid Waste to energy, and so on. Papers selected for this Special Issue are subjected to a rigorous peer review procedure with the aim of rapid and wide dissemination of research results, development, and application. I am writing to invite you to submit your original work to this Special Issue. I am looking forward to receiving your outstanding research.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
