Special Issue

New Insights into Reservoir 3D Modeling and Simulation

Message from the Guest Editor

This special issue focuses on the recent advances and state of art research contributions in the 3D reservoir Modeling and simulation including; reservoir characterization techniques, machine learning models, petroleum system models and applications.

Guest Editor

Dr. S.M. Talha Qadri School of Land Use and Environmental Change, University of the Fraser Valley, King Road, Abbotsford, BC V2S 7M8, Canada

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
