

Special Issue

Risk Assessment of Innovative Energy Systems

Message from the Guest Editors

The is inviting submissions to a Special Issue of *Energies* on the subject area of “Risk Assessment of Innovative Energy Systems”. This Special Issue will deal with risk assessment for future innovative energy systems with renewable sources, secondary energy sources (hydrogen), CCUS-based techniques, etc. Topics of interest for publication include but are not limited to:

- Climate change risks on energy systems;
- Energy storage systems and risks;
- Energy management systems;
- Conventional energy systems and risks;
- Optimal operation of renewable energy;
- Demand side management;
- Resilient energy systems modeling.

Guest Editors

Dr. Bing Wang

School of Energy and Mining Engineering, China University of Mining and Technology-Beijing, Beijing 100083, China

Dr. Yujiao Xian

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
