

Special Issue

Rural Renewable Energy Utilization and Electrification

Message from the Guest Editors

We would like to invite you to submit your original research, overview papers, and reviews to this Special Issue of *Energies* on “Renewable Rural Energy.” For a long time, the problem of rural energy has been approached from multiple specialties, which sometimes on the access to energy and poverty, and sometimes on the perspective of the countryside as a provider of energy for the cities. This Special Issue addresses a prospect beyond conventional electrification, taking into account technical, social, economic, and geographical aspects for the promotion of sustainable energy and energy transition in rural areas. To promote the use of sustainable energy within rural communities, we would like to take a global approach to the problem, taking into account the perspectives of scholars specialized in this matter.

Guest Editors

Prof. Dr. Javier Domínguez Bravo

Energy Department, CIEMAT, 28040 Madrid, Spain

Dr. Jorge M. Islas-Samperio

Institute of Renewable Energies, National Autonomous University of Mexico, Morelos 62580, Mexico

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
