

Special Issue

Smart Anything Everywhere: New Frontiers, Solutions, Issues & Challenges

Message from the Guest Editors

The special issue aims to acquire varied comprehensive state-of-the-art unpublished contributions from both industry and academia to meticulously address the new frontiers, novel solutions, issues, challenges surrounded by implementing 'Smart anything everywhere'. This special issue equally encourages the proposition and demonstration of use cases, frameworks, applications, and testbeds for Smart X.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
