

Special Issue

Advances and Trends in Smart Energy Communities

Message from the Guest Editors

We would like to invite submissions to a Special Issue of *Energies* entitled “Advances and Trends in Smart Energy Communities”. The topics of interest include but are not limited to:

- Smart energy communities;
- Smart grids and microgrids;
- Smart electric transportation systems;
- Smart energy systems;
- Intelligent systems, solving methods, optimization and advanced heuristics;
- The modeling, planning, and operating of renewable energy resources;
- Business models for different electricity market players;
- Demand side management and demand response;
- The sizing, placement, and operation of energy storage systems and electric vehicles;
- Smart homes and building energy management;
- Electricity market, electrical power and energy systems;
- Microgrids and islanded networks;
- Smart cities, smart energy, and IoT;
- Modern power systems and renewable energy resources.

Guest Editors

Prof. Dr. Pierluigi Siano

Department of Management and Innovation Systems, University of Salerno, 84084 Salerno, Italy

Dr. Hassan Haes Alhelou

School of Electrical and Electronic Engineering, University College Dublin, Dublin 4, Ireland

Deadline for manuscript submissions

closed (31 December 2021)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
