## Special Issue

# Soft Computing Applications in Electric Power Networks

### Message from the Guest Editors

In the Special Issue "Soft Computing Applications in Electric Power Networks", we welcome articles that exchange views about the novel methodologies-based applications related to electrical power networks, providing sufficient analysis and solutions to the difficult problems in such applications. Moreover, additional applications related to soft computing methodologies can be considered based on the problems related to renewable energy systems (solar, thermoelectric, wind, fuel cell, etc.), power operation management, microgrid design (with renewable and non-renewable generation), etc.

### Guest Editors

Dr. Mohamed A. Tolba

Prof. Dr. Ali M. Eltamaly

Dr. Ahmed A. Zaki Diab

Dr. Vladimir N. Tulsky

### Deadline for manuscript submissions

closed (30 November 2023)

# About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

### Author Benefits

**Open Access:**
free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:**
indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:**
CiteScore - Q1 (Control and Optimization)
