

## Special Issue

# Solar Technologies for Buildings

### Message from the Guest Editors

This Special Issue aims to invite investigators to contribute original research articles, as well as review articles, that will stimulate the continuous efforts on understanding the operational principles of the various building-applicable solar thermal and power technologies and systems. We are particularly interested in articles describing new materials, methods, theories, or practical innovations that can help enhance the efficiency and reduce the cost of solar systems. Potential topics include, but are not limited to:

- Solar thermal systems: domestic hot water, space heating and cooling
- Photovoltaic and building integrated photovoltaic technologies
- Photovoltaic/Thermal technologies
- Solar thermal energy storage systems, including PCMs
- Thermal management system using intelligent control and monitoring measures
- Building integration methods for solar technologies and associated performance characterization.

### Guest Editors

Prof. Dr. Xudong Zhao

1. Centre for Sustainable Energy Technologies, Energy and Environment Institute, University of Hull, Hull HU6 7RX, UK
2. Center of Intelligent Acoustics and Immersive Communications, Northwestern Polytechnical University, 127 Youyi West Road, Xi'an 710072, China

Prof. Dr. Yanping Yuan

School of Mechanical Engineering, Southwest Jiaotong University, Chengdu 610031, China

### Deadline for manuscript submissions

closed (20 November 2017)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
