

## Special Issue

# Advanced Development on Solar, Wind and Tidal Energy

### Message from the Guest Editors

Renewable energy sources play a key role in the decarbonization process of the electrical system. For this same reason, intense research is being carried out around the world and is aiming at the best use of these sources, including the combined exploration of these sources in hybrid plants. Complementarity between solar, wind and tidal sources can be explored both in the development of new devices as well as in business models. We invite you to submit a publication to the *Energies* Special Issue “Advanced Development of Solar, Wind and Tidal energy”. Original submissions dealing with the application of solar, wind and tidal resources are welcome. This Special Issue will include but is not limited to:

- New technologies in solar, wind and marine energy;
- Hybrid systems;
- Grid integration analysis;
- Green hydrogen systems;
- Storage systems;
- Renewable isolated microgrids;
- Trends in renewable energy

### Guest Editors

Dr. Osvaldo Ronald Saavedra

Prof. Luiz Carlos P. da Silva

Dr. Pedro Bezerra Leite Neto

### Deadline for manuscript submissions

closed (10 March 2022)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
