

## Special Issue

# Sustainability Transformations in the Energy, Water and Agri- Food Sectors

### Message from the Guest Editors

The aim of this Special Issue is to observe and highlight trends, drivers, and challenges for sustainable transformations in the energy generation and supply, water and wastewater management, agriculture, and food supply sectors, as well as at the cross-sectoral level. Original research papers presenting theoretical insights and/or empirical analyses related to environmental, economic, social, and technical dimensions of sustainability transitions and transformations are welcome. Submissions employing quantitative methods or qualitative analyses, as well as review articles are strongly encouraged.

- Sustainable transition
- Positive energy district
- Demand flexibility and storage optimization
- Decarbonization
- Sector coupling
- Water–energy–food–land–climate nexus
- Circular business models
- Social engagement
- Narrative
- Consumer behavior
- Climate policy

---

### Guest Editors

Dr. Elina Dace

Sustainable Transitions Modeling Group, Institute of Microbiology and Biotechnology, University of Latvia, Jelgavas Street 1, LV-1004 Riga, Latvia

Dr. Jelena Ziemele

Computational Systems Biology Group, Institute of Microbiology and Biotechnology, University of Latvia, Jelgavas Street 1, LV-1004 Riga, Latvia

---

### Deadline for manuscript submissions

closed (20 March 2022)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
