

Special Issue

Challenges and Opportunities for the Sustainable Energy Economy

Message from the Guest Editors

This Special Issue will focus on the challenges and opportunities for the Sustainable Energy Economy, both at the theoretical and empirical level, regarding public policies, financing, competition, energy investments, sustainable business environments, and models, etc., as drivers (or detractors) for sustainable businesses. Topics of interest for publication include, but are not limited to:

- Sustainable energy economy modelling and scenarios.
- Sustainable energy economy dynamics at corporate, regional, national, and global levels.
- Major risks and barriers for the transition to sustainable energy economy.
- Redefining corporate performance in the context of sustainable energy economy.
- Sustainable energy economy and Industry 4.0—challenges, opportunities, and impacts.
- New processes, systems, and structures for the sustainable energy economy.
- New business models for the sustainable energy economy in energy and non-energy companies.
- Sustainable energy economy—market dynamics and trends.
- Reshaping value chains for the sustainable energy economy.
- The social, economic, and environmental impact of sustainable energy.

Guest Editors

Dr. Mircea Fuciu

Dr. Claudia Ogorean

Prof. Dr. Mihaela Herciu

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
