Special Issue

Sustainable Finance in Energy Sectors

Message from the Guest Editor

The Special Issue aims to highlight the challenges of green financing and investment in renewable energy projects and to provide practical solutions for filling the green financing gap. This Special Issue is therefore focused on how the concepts, instruments, and tools of sustainable finance have been utilized in various contexts to enable a transition to sustainable energy systems, with an emphasis on the efficiency and higher efficiency of sustainable energy sectors. Keywords:

- Sustainable finance
- Green growth for energy (financial factors)
- Environmental (green) taxes
- Financial market
- Energy finance
- Sustainable financial products and services
- ESG risk and negative externalities
- Sustainable business models
- Green products and instruments for energy
- Efficiency and optymalisation
- Public policies

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
