

Special Issue

Approaches, Advances and Applications in Sustainable Development of Smart Cities

Message from the Guest Editors

Dear colleagues, We are inviting submissions—that is, research articles, literature reviews, case reports, short communications—to the Energies Special Issue on “Approaches, Advances, and Applications in Sustainable Development of Smart Cities”. The scope of the special issue includes the following broad areas, with a particular focus on the approaches, advances, and applications in the sustainable development of smart cities:

- Theoretical underpinnings and analytical and policy frameworks;
- Methodological approaches for the evaluation of smart and sustainable cities;
- Technological developments in the techno-enviro nexus;
- Global best practice smart city case investigations and reports;
- Geo-design and applications concerning desired urban outcomes;
- Prospects, implications, and impacts concerning the future of smart and sustainable cities.

Asspc.

Guest Editors

Prof. Dr. Tan Yigitcanlar

Dr. Hoon Han

Dr. Md. (Liton) Kamruzzaman

Deadline for manuscript submissions

closed (30 September 2019)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
