

Special Issue

Thermal and Combustion Applications

Message from the Guest Editor

We are pleased to offer the opportunity to publish your original research paper in the journal *Energies*, Special Issue: “Thermal and Combustion Applications”. This issue is dedicated to applications of the combustion process. The areas of interest are traction and stationary (cogeneration) combustion engines. Articles may concern the combustion process in these engines when powered by new types of fuel (for example: biofuels, hydrogen) under specific operating conditions. The main thrust of this Special Issue is to show how combustion in internal combustion engines can be adapted to meet the changing demands of the modern world. We invite you to publish your articles.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
