

Special Issue

Thermochemical Conversion of Biomass and Waste

Message from the Guest Editors

In this Special Issue, we seek your contributions on original papers and reviews about the latest research and technical development in thermochemical conversion processes. Original work on experimental investigations into detailed aspects of the processes as well as modeling and simulations is encouraged. We also encourage the technoeconomic assessment of both retrofit and innovative energy systems using thermochemical conversion technologies as it is essential to bring R&D activities into commercialization.

Guest Editors

Prof. Kentaro Umeki

Division of Energy Science, Luleå University of Technology, Luleå, Sweden

Dr. Matthias Kuba

BEST Bioenergy and Sustainable Technology, Unit Fluidized Bed Technology, Wiener Strasse 49, Güssing A-7540, Austria

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
