## Wind Energy

### Message from the Guest Editor

The "Wind Energy" issue of "Energies" focuses on recent advances in the wind energy sector on a variety of topics, including: wind resource mapping, wind intermittency issues, wind harnessing technologies, effects of wind farms on local and global climate, effects of global climate change on wind resource. ## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
