

# Topical Collection

## Women in Fuel

### Message from the Collection Editor

This Special Issue of *Energies*, entitled "Women in Fuel" aims to highlight the achievements of women in the transition toward environmentally friendly fuels in the energy and transportation sectors. In recent decades, the roles of women in sustainable mobility and energy production systems have increasingly grown, and as a result they are more important than ever. This Special Issue is focused on the contribution of women to the most challenging issues related to the production of biofuels, the impact of advanced renewable fuels on transport and the environment and the optimization of flexi-fuel technologies, through a collection of high-quality research papers and comprehensive review articles. We welcome submissions from all authors, irrespective of gender.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
