

## Special Issue

# Advances in Structural Analysis and Rehabilitation for Existing Structures

### Message from the Guest Editor

This Special Issue titled "Advances in Structural Analysis and Rehabilitation for Existing Structures" is a timely and important addition to the field of civil engineering. This Special Issue presents the latest research and developments in the area of structural analysis and rehabilitation of existing structures, which is a critical and growing area of focus for the engineering community. The issue covers a broad range of topics related to the assessment, repair, strengthening, and maintenance of existing structures and includes contributions from leading researchers and practitioners from around the world. The papers in this issue will be of interest to researchers, engineers, and practitioners involved in the design, assessment, and rehabilitation of existing structures and will provide valuable insights and knowledge to help to address the challenges and opportunities in this important and growing field.

## About the Journal

### Message from the Editor-in-Chief

*Eng* (ISSN 2673-4117) is an international, peer-reviewed open access journal which publishes original papers, critical reviews, rapid communications, technical notes, and discussions on all areas of engineering.

---

### Editor-in-Chief

Prof. Dr. Antonio Gil Bravo

INAMAT<sup>2</sup>-Departamento de Ciencias, Edificio de los Acebos,  
Universidad Pública de Navarra, Campus de Arrosadía, 31006  
Pamplona, Spain

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within ESCI (Web of Science), Scopus, Ei Compendex, EBSCO and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q2 (Engineering (miscellaneous))
