Message from the Guest Editors

Entropy is a key concept in thermodynamics. We decide to expand Entropy journal to cover thermodynamics in general also. All papers on thermodynamics, thermal physics, thermochemistry, heat transfer are invited for consideration and publication in this special issue. In future, a section "Thermodynamics" will be set up.

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.
