## Selected Papers from the 4th International Conference on Sustainable Energy and Environmental Development

Guest Editors:

**Prof. Dr. Francesco Calise**

Department of Industrial  
Engineering, University of Naples  
Federico II, 80125 Naples, Italy

frcalise@unina.it

**Dr. Maria Vicidomini**

Department of Industrial  
Engineering, University of Naples  
Federico II, P.le Tecchio 80,  
Naples, Italy

maria.vicidomini@unina.it

Deadline for manuscript  
submissions:

**31 January 2022**

### Message from the Guest Editors

The 4th International Conference on Sustainable Energy and Environmental Development (SEED) invites scientists, professional engineers, social workers, policymakers, and other stakeholders from all over the world to participate in this event, giving them the opportunity to present and publish their work, discuss and exchange ideas and knowledge, and network for future collaborations. The conference will be held in Krakow, Poland, from 13 to 15 October 2021.

The scope of the conference will cover the area of sustainable energy and environmental development, including topics such as nonrenewable and renewable energy sources, technologies and systems, energy efficiency, energy storage, green energy and economy, environmental protection in energy management systems, power-to-gas and power-to-liquid technologies, alternative fuels, and others. Further information about the Conference is available at [www.seedconference.org](http://www.seedconference.org).

Submissions are invited on the basis of accepted conference papers that will be presented at the Conference. The Scientific Committee will select the papers for this Special Issue which will fall within the scope of the journal *Entropy*.

## Editor-in-Chief

### Prof. Dr. Kevin H. Knuth

Department of Physics, University  
at Albany, 1400 Washington  
Avenue, Albany, NY 12222, USA

## Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

*Entropy* is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [MathSciNet](#), [Inspec](#), [PubMed](#), [PMC](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Physics, Multidisciplinary*) / [CiteScore](#) - Q1 (*Mathematical Physics*)
