Selected Papers from the 11th International Conference on Complex Networks and Their Applications

Message from the Guest Editors

Since 2012, the International Conference on Complex Networks and Their Applications (COMPLEX NETWORKS) has brought together researchers from different scientific communities working on areas related to network science. The eleventh edition of this annual event will be held in a hybrid format from 8 to 10 November 2022. Selected contributions will be invited for submission to this Special Issue. They reflect the latest problems, advances, and diversity within the network science community.

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.
