

Special Issue

Selected Papers from 14th Joint European Thermodynamics Conference

Message from the Guest Editors

The Special Issue will mainly consist of selected papers presented at “14th Joint European Thermodynamics Conference”. Papers in the following topic are also welcome on this Special Issue:

- Non-Equilibrium Thermodynamics
- Quantum Thermodynamics
- Non-additive thermostatics

Guest Editors

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.
