

Special Issue

Causal Graphical Models and Their Applications, 2nd Edition

Message from the Guest Editors

The objective of this Special Issue is to present recent advances in causal reasoning and causal discovery based on causal graphical models, including novel applications in different domains. Topics include but not limited to:

- causal graphical models
- causal reasoning
- causal discovery
- applications of causal models

Guest Editors

Dr. Luis Enrique Sucar

Instituto Nacional de Astrofísica, Óptica y Electrónica (INAOE), Santa María Tonantzintla, Puebla 72840, Mexico

Dr. Ruben Sanchez-Romero

Center for Molecular and Behavioral Neuroscience CMBN, Rutgers University, Newark, NJ 07102, USA

Deadline for manuscript submissions

28 February 2026

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Department of Physics, University at Albany, 1400 Washington Avenue,
Albany, NY 12222, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
