

## Special Issue

# Bridging Bayesian and Information-Theoretic Approaches in Earth and Environmental System Modeling: Theory and Practical Applications

### Message from the Guest Editors

We invite contributions that link information and Bayesian theory using theoretical examples or cross-cutting applications. Topics may include, but are not limited to:

- Bayesian probability theory
- Bayesian uncertainty assessment
- Bayesian optimal design
- information theory
- Shannon entropy
- algorithmic information theory
- causal inference
- model evaluation

---

### Guest Editors

Dr. Anneli Guthke

Dr. Jasper A. Vrugt

Dr. Steven V. Weijis

---

### Deadline for manuscript submissions

31 August 2025

## About the Journal

### Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

*Entropy* is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

---

### Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Department of Physics, University at Albany, 1400 Washington Avenue,  
Albany, NY 12222, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
