

Special Issue

Space-Air-Ground-Sea Integrated Communication Networks

Message from the Guest Editors

We welcome relevant experts, scholars, and researchers to submit papers and review articles that are related, but not limited, to the following topics of interests:

- Network architecture and protocols of SAGSIN;
- Performance analysis based on information theory for SAGSIN;
- Self-organization schemes of for SAGSIN;
- Resource allocation and management of SAGSIN;
- Cognitive radio of SAGSIN;
- Cloud computation and edge computation of SAGSIN;
- Interconnection and cooperation between heterogeneous networks in SAGSIN;
- QoS-aware algorithms, interference mitigation algorithms and energy-efficiency algorithms for SAGSIN;
- Cross-domain topology discovery of heterogeneous networks;
- Machine learning technologies for SAGSIN;
- New information theory for SAGSIN such as semantic communication;
- Network optimization based on game theory and other optimization tools;
- Simulation and experiment studies of SAGSIN.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Department of Physics, University at Albany, 1400 Washington Avenue,
Albany, NY 12222, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
