

Special Issue

Selected Papers from the 5th conference on Geometric Science of Information

Message from the Guest Editors

This Special Issue will collect a limited number of selected invited and contributed talks presented during the conference GSI'21 on Geometric Science of Information, which will be held in Sorbonne University, Paris, France, in July 2021. The conference website can be found at <https://www.see.asso.fr/en/GSI2021>.

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.
